## Ask Yourself...

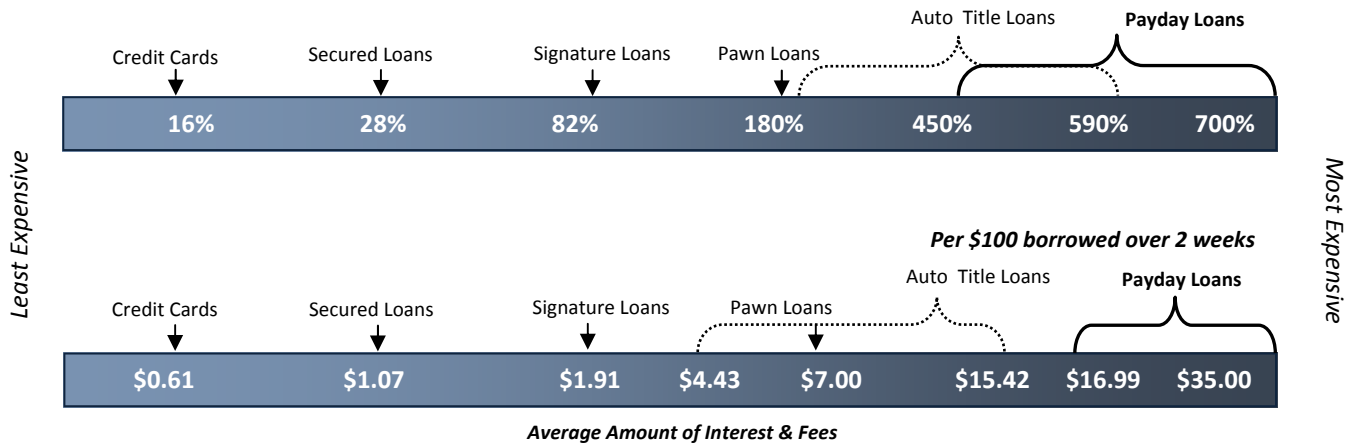

- ◆ Is it necessary for me to borrow the money?
- ◆ Can I afford to pay this loan back **in full** by the due date?
- ◆ Will I be able to pay my regular bills and repay this loan?
- ◆ Can I afford the extra charges, interest, and fees that may be applied if I miss or fail to make payment?
- ◆ Are other credit options available to me at this time?

## Loan Calculation & Cost Comparison

Payday loans are cash advances provided to a borrower to meet financial needs. As a borrower, you will be required to sign a loan agreement that tells you the amount you have requested to borrow, the annual percentage rate (APR) for that loan, the amount of interest and fees that may be charged for that loan, and the payment terms of the loan. Payday loans may be one of more expensive borrowing options available to you. Payday loans may also be referred to as cash advance, delayed deposit or deferred presentment loans.
